Knowing History in Schools Arthur Chapman, 2021-01-07 The 'knowledge turn' in curriculum studies has drawn attention to the central role that knowledge of the disciplines plays in education, and to the need for new thinking about how we understand knowledge and knowledge-building. *Knowing History in Schools* explores these issues in the context of teaching and learning history through a dialogue between the eminent sociologist of curriculum Michael Young, and leading figures in history education research and practice from a range of traditions and contexts. With a focus on Young's 'powerful knowledge' theorisation of the curriculum, and on his more recent articulations of the 'powers' of knowledge, this dialogue explores the many complexities posed for history education by the challenge of building children's historical knowledge and understanding. The book builds towards a clarification of how we can best conceptualise knowledge-building in history

education. Crucially, it aims to help history education students, history teachers, teacher educators and history curriculum designers navigate the challenges that knowledge-building processes pose for learning history in schools.

The Taste of Art Silvia Bottinelli, Margherita d'Ayala Valva, 2017-06-01 The Taste of Art offers a sample of scholarly essays that examine the role of food in Western contemporary art practices. The contributors are scholars from a range of disciplines, including art history, philosophy, film studies, and history. As a whole, the volume illustrates how artists engage with food as matter and process in order to explore alternative aesthetic strategies and indicate countercultural shifts in society. The collection opens by exploring the theoretical intersections of art and food, food art's historical root in Futurism, and the ways in which food carries gendered meaning in popular film. Subsequent sections analyze the ways in which artists challenge mainstream ideas through food in a variety of scenarios. Beginning from a focus on the body and subjectivity, the authors zoom out to look at the domestic sphere, and finally the public sphere. Here are essays that study a range of artists including, among others, Filippo Tommaso Marinetti, Daniel Spoerri, Dieter Roth, Joseph Beuys, Al Ruppertsberg, Alison Knowles, Martha Rosler, Robin Weltsch, Vicki Hodgetts, Paul McCarthy, Luciano Fabro, Carrie Mae Weems, Peter Fischli and David Weiss, Janine Antoni, Elżbieta Jabłońska, Liza Lou, Tom Marioni, Rirkrit Tiravanija, Michael Rakowitz, and Natalie Jeremijenko.

Global Nomads Anthony D'Andrea, 2007-01-24 Global Nomads provides a unique introduction to the globalization of countercultures, a topic largely unknown in and outside academia. Anthony D'Andrea examines the social life of mobile expatriates who live within a global circuit of countercultural practice in paradoxical paradises. Based on nomadic fieldwork across Spain and India, the study analyzes how and why these post-metropolitan subjects reject the homeland in order to shape an alternative lifestyle. They become artists, therapists, exotic traders and bohemian workers seeking to integrate labor, mobility and spirituality within a cosmopolitan culture of expressive individualism. These countercultural formations, however, unfold under neo-liberal regimes that appropriate utopian spaces, practices and imaginaries as commodities for tourism, entertainment and media consumption. In order to understand the paradoxical globalization of countercultures, Global Nomads develops a dialogue between global and critical studies by introducing the concept of 'neo-nomadism' which seeks to overcome some of the shortcomings in studies of globalization. This book is an essential aide for undergraduate, postgraduate and research students of Sociology, Anthropology of Globalization, Cultural Studies and Tourism Studies.

Dispatches Michael Herr, 2014-12-15 'The best book I have ever read on men and war in our time' – John Le Carré Michael Herr went to Vietnam as a war correspondent for Esquire. He returned to tell the real story in all its hallucinatory madness and brutality, cutting to the quick of the conflict and its seductive, devastating impact on a generation of young men. His unflinching account is haunting in its violence, but even more so in its honesty. First published in 1977, Dispatches was a revolutionary piece of new journalism that evoked the experiences of soldiers in Vietnam which has forever shaped our

understanding of the conflict. A groundbreaking piece of journalism, part of the Picador Collection, which inspired Stanley Kubrick's classic Vietnam War film Full Metal Jacket.

EBOOK: A Sociology of Mental Health and Illness Anne Rogers, David Pilgrim, 2014-05-16 How do we understand mental health problems in their social context? A former BMA Medical Book of the Year award winner, this book provides a sociological analysis of major areas of mental health and illness. The book considers contemporary and historical aspects of sociology, social psychiatry, policy and therapeutic law to help students develop an in-depth and critical approach to this complex subject. New developments for the fifth edition include: Brand new chapter on prisons, criminal justice and mental health Expanded coverage of stigma, class and social networks Updated material on the Mental Capacity Act, Mental Health Act and the Deprivation of Liberty A classic in its field, this well established textbook offers a rich and well-crafted overview of mental health and illness unrivalled by competitors and is essential reading for students and professionals studying a range of medical sociology and health-related courses. It is also highly suitable for trainee mental health workers in the fields of social work, nursing, clinical psychology and psychiatry. Rogers and Pilgrim go from strength to strength! This fifth edition of their classic text is not only a sociology but also a psychology, a philosophy, a history and a polity. It combines rigorous scholarship with radical argument to produce incisive perspectives on the major contemporary questions concerning mental health and illness. The authors admirably balance judicious presentation of the range of available understandings with clear articulation of their own positions on key issues. This book is essential reading for everyone involved in mental health work. Christopher Dowrick, Professor of Primary Medical Care, University of Liverpool, UK Pilgrim and Rogers have for the last twenty years given us the key text in the sociology of mental health and illness. Each edition has captured the multi-layered and ever changing landscape of theory and practice around psychiatry and mental health, providing an essential tool for teachers and researchers, and much loved by students for the dexterity in combining scope and accessibility. This latest volume, with its focus on community mental health, user movements criminal justice and the need for inter-agency working, alongside the more classical sociological critiques around social theories and social inequalities, demonstrates more than ever that sociological perspectives are crucial in the understanding and explanation of mental and emotional healthcare and practice, hence its audience extends across the related disciplines to everyone who is involved in this highly controversial

and socially relevant arena. Gillian Bendelow, School of Law Politics and Sociology, University of Sussex, UK From the classic bedrock studies to contemporary sociological perspectives on the current controversy over which scientific organizations will define diagnosis, Rogers and Pilgrim provide a comprehensive, readable and elegant overview of how social factors shape the onset and response to mental health and mental illness. Their sociological vision embraces historical, professional and socio-cultural context and processes as they shape the lives of those in the community and those who provide care; the organizations mandated to deliver services and those that have ended up becoming unsuitable substitutes; and the successful and unsuccessful efforts to improve the lives through science, challenge and law. Bernice Pescosolido, Distinguished Professor of Sociology, Indiana University, USA

The Cultural Contradictions Of Capitalism Daniel Bell, 1996-10-18 With a new afterword by the author, this classic analysis of Western liberal capitalist society contends that capitalism—and the culture it creates—harbors the seeds of its own downfall by creating a need among successful people for personal gratification—a need that corrodes the work ethic that led to their success in the first place. With the end of the Cold War and the emergence of a new world order, this provocative manifesto is more relevant than ever.

Subculture Dick Hebdige, 2013-10-08 First Published in 2002. It is easy to see that we are living in a time of rapid and radical social change. It is much less easy to grasp the fact that such change will inevitably affect the nature of those disciplines that both reflect our society and help to shape it. Yet this is nowhere more apparent than in the central field of what may, in general terms, be called literary studies. 'New Accents' is intended as a positive response to the initiative offered by such a situation. Each volume in the series will seek to encourage rather than resist the process of change. To stretch rather than reinforce the boundaries that currently define literature and its academic study.

Postmodernism, Or, The Cultural Logic of Late Capitalism Fredric Jameson, 2012 This wide-ranging work seeks to crystallize a definition of postmodernism. The author looks at the postmodern across a wide landscape, from high art to low; from market ideology to architecture, from painting to punk; film, from video art to literature.

12 Rules for Life Jordan B. Peterson, 2018-01-16 The #1 Sunday Times and International Bestseller from 'the most influential public intellectual in the Western world right now' (New York Times) What are the most valuable things that everyone should know? Acclaimed clinical psychologist Jordan Peterson has influenced the modern understanding of personality, and now he has become one of the world's most popular public thinkers, with his lectures on topics from the

Bible to romantic relationships to mythology drawing tens of millions of viewers. In an era of unprecedented change and polarizing politics, his frank and refreshing message about the value of individual responsibility and ancient wisdom has resonated around the world. In this book, he provides twelve profound and practical principles for how to live a meaningful life, from setting your house in order before criticising others to comparing yourself to who you were yesterday, not someone else today. Happiness is a pointless goal, he shows us. Instead we must search for meaning, not for its own sake, but as a defence against the suffering that is intrinsic to our existence. Drawing on vivid examples from the author's clinical practice and personal life, cutting edge psychology and philosophy, and lessons from humanity's oldest myths and stories, 12 Rules for Life offers a deeply rewarding antidote to the chaos in our lives: eternal truths applied to our modern problems.
