Woodturning Phil Irons,2000 This guide to woodturning provides step-by-step instructions for 20 projects. It features die-cut pages that split the book into two separate sections, so that the reader can open the top section on the project that they want to recreate, and the lower section reveals the techniques needed.

Contemporary Woodturning Nick Arnall,2012 Contemporary Woodturning is a clearly illustrated practical guide to woodturning aimed at woodworkers at all skill levels: a one-stop solution for experienced turners and novices alike. This book will guide you through the various health and safety issues, the tools and equipment needed to get the best out of your woodturning, mastering the basic techniques and how to add decorative features. Nick Arnall guides his readers through these complex techniques in a logical step-by-step manner and with a clarity that comes from many years of professional woodturning experience. He also illustrates how to use highly original decorative methods and artistic skills to complete the finished projects. Each project includes easy-to-follow instructions and detailed photography to inspire you to take what you have learnt and apply these skills to your own work. Whether you are a seasoned turner or have no prior experience at all, you will find a wealth of inspiration in these pages. AUTHOR: Professional woodturner, author and demonstrator Nick Arnall produces decorative turned wood art and batches of turned spindles for furniture makers, cabinetmakers, joiners and builders. He has demonstrated at symposiums all over the world including the Utah Woodturning Symposium in 2006. He has had a published article in the American Woodturner Journal of the American Association of Woodturners in 2008, and regularly contributes to Woodturning magazine. All Screwed Up! John Berkeley,2005 Hand-chasing wooden threads, the centuries-old technique of joining two pieces of a wooden object together, is the focus of this instructional guide to creating wooden puzzles and boxes with screw lids. Aimed at both hobbyists and professional woodworkers, the projects range from the simple to the complex and include Box Basics, the Wedding Ring Box, and In the Soup, an exasperating puzzle that involves removing a ball from a bowl. A thorough tutorial accompanied by numerous photographs guides woodworkers through the intricacies of the hand-chasing process. A discussion of wood choices, safety precautions, and tools, including lathes, chasing tools, and the all-important armrest, is included.

Les bases du tournage sur bois Gérard Bidou, 2017-04-20 Artisanat très ancien, le tournage sur bois a évolué avec la mécanisation. Mais il reste un art à part entière pour l'artisan et l'amateur qui continuent à exercer leur habileté manuelle, leur imagination créatrice et leur sens esthétique. Prenant en compte les dernières évolutions techniques, la nouvelle édition augmentée de cet ouvrage décrit très précisément le matériel et les procédés fondamentaux - tournage entre pointes et tournage en l'air -, les outils adaptés et les travaux qu'ils autorisent. Huit projets expliqués étape par étape-verre à pied, bonbonnière, boîte à tiroir, boule, coupe sur pied classique, coupe design, urne et entrelacs - permettent au débutant d'acquérir peu à peu les gestes du professionnel tout en réalisant des objets décoratifs et séduisants. Gérard Bidou met au service du lecteur sa parfaite maîtrise du tournage et sa passion pour cet artisanat aux multiples possibilités techniques et créatives. Prolongement logique de son enseignement de plus de vingt ans en formation professionnelle et de ses échanges avec des tourneurs du monde entier, ses livres sont remarquables par leurs qualités pédagogiques.

Ellsworth on Woodturning David Ellsworth, 2008-11-01 Learn how to bring out the beauty in wood from the grandfather of woodturning, David Ellsworth. He shares masterful techniques for his signature eggshell-thin hollow designs in three projects for a hollow bowl, natural-edge vessel, and pot. A gallery of his work and the pieces in his collection will inspire both new and advanced turners.

Hawks on Hawks Joseph McBride, 2013-12-03 I read Hawks on Hawks with passion. I am very happy that this book exists. -- François Truffaut Howard Hawks (1896--1977) is often credited as being the most versatile of all of the great American directors, having worked with equal ease in screwball comedies, westerns, gangster movies, musicals, and adventure films. He directed an impressive number of Hollywood's greatest stars -- including Humphrey Bogart, Cary Grant, John Wayne, Lauren Bacall, Rosalind Russell, and Marilyn Monroe -- and some of his most celebrated films include Scarface (1932), Bringing Up Baby (1938), The Big Sleep (1946), Red River (1948), Gentlemen Prefer Blondes (1953), and Rio Bravo (1959). Hawks on Hawks draws on interviews that author Joseph McBride conducted with the director over the course of seven years, giving rare insight into Hawks's artistic philosophy, his relationships with the stars, and his position in an industry that was rapidly changing. In its new edition, this classic book is both an account of the film legend's life and work and a guidebook on how to make movies.

Woodturning Projects Mark Baker, 2003 Woodturning enthusiasts looking to advance their skills will delight in this

collection of 50 challenging and diverse projects. Some of the featured designs include boxes: cylindrical, diablo and clamshell; bowls: round-bottom, flared and winged; and platters: minimalist, handled and roll-rimmed. Each project is accompanied by diagrams, wood and tool requirements, and even suggestions for alternative designs. Beginners who wish to build skill by approaching these projects at a simpler level will benefit from the thorough sections on safety, tools and equipment, finishing products and types of wood. More seasoned turners hoping to test their expertise might take the designs found here and create even bigger, more elaborate constructions.

Discovering Craft Villages in Vietnam Sylvie Fanchette, Nicholas Stedman, 2018-11-19 With their festivals and traditional industries, their commun halls, pagodas, temples, and vernacular buildings, the villages around Hà Nội possess a rich body of cultural, architectural and craft heritage. Less than one hour from the capital are over 500 specialist craft villages, producing an array of religious or artistic objects, as well as food products, industrial goods, textiles, basketware and much more. Despite the trials and tribulations Vietnam has endured, these traditions have remained alive; today they constitute the basis of material, social and spiritual culture among the village communities of the Red River delta. The artisans themselves, and their local institutions, see cultural tourism as a way of further improving the fortunes of the craft village communities and bringing their heritage to wider attention. Until recently, few guides or tourists had forayed into these settlements, some of which are lost in the maze of routes and tracks that criss-cross the rice paddies of the Hà Nội hinterland. The history and skills they harbour have been inaccessible to all but a few specialists. Few of the villages are signposted, yet between them they are home to three quarters of the architectural, religious and craft heritage of the upper delta. This book, the fruit of several years' research by specialists working in northern Vietnam, comprises ten itineraries, blending potted histories, legends, descriptions of craft techniques, signposted walks and maps, designed to introduce travellers and lovers of Vietnamese culture to forty or so villages around Hà Nội. Many of us have seen their wares on sale in shops in and around the 36 streets of Hà Nội Old Quarter or in other cities in West. This book is about the true lives and enduring skills of the nameless artisans who made them.
