Commentary on the Italian Code of Civil Procedure Simona Grossi, Maria Cristina Pagni, 2010-03-25 Commentary on the Italian Code of Civil Procedure is a unique and comprehensive guide to understanding the structure and functioning of the Italian Code of Civil Procedure. The book provides a reliable translation to the provisions for the implementation of the 840 articles of the Italian Code of Civil Procedure. An indispensable resource for practitioners in the field, this book provides a description of civil procedure and the translated text of the Italian Code of Civil Procedure, with an explanation of the legal terms, provisions for the implementation of the Code, and valuable commentary. The commentary and translations included in this book were prepared by Italian attorneys with extensive experience working with the Italian Code of Civil Procedure and American Civil Procedure.

The Italian Civil Code and Complementary Legislation Mario Beltramo, 1991 Prepared by editors who understand the history of the legal system and the practice of law in Italy, this careful translation is accurate to the intent of the law. Unique in its coverage of both civil and commercial law matters, The Italian Civil Code includes sources and application of the Law in General and Book One through Six of the Code: Persons and the Family, Succession, Property Rights, Obligations, Labor, and Protection of Rights. Also includes legislation addressing adoption and entrustment of minors, marriage, antitrust, companies, accounts, citizenship, and conflicts of laws reform. The Italian Civil Code also contains Legislative Decree No. 6, which implements radical reform to Book Five of the Code. Some significant reforms include an introduction to three different models of governance, a change in the regime of cooperative societies, and an establishment of new principles of the auditing of accounts.

European Family Law Volume III Jens M. Scherpe,2016-01-29 Family Law in a European Perspective examines core aspects of family law from a comparative European perspective: marriage, divorce, cohabitation, same-sex relationships, the financial consequence of divorce, adoption, parentage and surrogacy, parental responsibility, the child's welfare, and law concerning older people. These topics have been the most debated in family law over the past century. They cover areas where national family laws have reacted, or will need to react, to the challenges of societal changes, medical advances and institutional pressures including decisions of the European Courts. The contributions show diversity in, as well as developments towards, a common European family law. This book, and the others in the set, will serve as an invaluable resource for anyone interested in family law. It will be of particular use to students and scholars of comparative and international family law, as well as family law practitioners. Contributors: M. Antokolskaia, P. Beaumont, I. Curry-Sumner, C. Fenton-Glynn, J. Ferrer-Riba, R. George, J. Herring, J. Miles, J.M. Scherpe, C. Sörgjerd, K. Trimmings

Motherhood and the Law Harry Willekens,Kirsten Scheiwe,Theresa Richarz,Eva Schumann,2019 Who is a child's legal mother? Must a child have exactly one mother, can it have two or three, or can it have two fathers, but no mother? Or has the concept of motherhood become obsolete and should we just talk of parenthood in a gender neutral way? Questions such as these would have appeared esoteric only a few decades ago, but as a result of new social developments (such as frequent family reconstitutions, gay and lesbian emancipation or surrogacy) and of technological innovations (such as egg and embryo donations) they have become issues in a vehement debate. The interdisciplinary contributions to this book focus on the legal definition of motherhood, on the way in which legal conceptions structure the social discourse on motherhood (and vice versa), and on the influence of legal rules on power relations between mothers, fathers, children and the state. Among the issues addressed are - the challenges to our understanding of the legal regulation of motherhood by developments in reproductive medicine; - the challenges to our understanding of the legal regulation of motherhood by parental constellations deviating from the mother-father-model (single motherhood by choice, same-gender parenthood, multiple parenthood); - the

exercise of parental rights in case of parental separation and the impact of legal rules on the bargaining positions of mothers and fathers.

European Family Law in Action: Maintenance between former spouses Katharina Boele-Woelki, B. Braat, Ian Sumner, 2003
This book contains detailed information about maintenance between former spouses in twenty-two European legal systems. The expert members of the Commission on European Family Law prepared comprehensive national reports on the basis of a detailed questionnaire on the grounds for divorce (see EFL-series No.2) and the maintenance between former spouses. In addition to these national reports (which are available on the website of the Commission on European Family Law), this book integrates all the given answers in order to provide an overview and a straightforward simultaneous comparison of the different solutions chosen within the national systems. On the basis of this comparative material the Commission on European Family Law will formulate Principles of European Family Law.
