Landmark Cases in Family Law Stephen Gilmore, Jonathan Herring, Rebecca Probert, 2011-07-01 There are a number of important (landmark) cases in the development of Family Law in England and Wales that deserve detailed examination and lend themselves particularly well to historical examination. Family law cases tend to raise highly controversial issues, often on striking facts, frequently provoking wider social debate and/or extensive publicity. Consequently, the landmark cases chosen for this collection provide considerable scope, not only for doctrinal analysis and explanation of the importance and impact of the decisions, but also for in-depth examination of the social or policy developments that influenced them. The stories behind the cases provide a fascinating insight into the complexities of family life and the drama that can be found in the family courts. In recent years, Family Law has seen enormous changes in law's engagement with the notion of 'family', with the enactment, for example, of the Civil Partnership Act 2004, the Gender Recognition Act 2004 and, more recently, the Human Fertilisation and Embryology Act 2008. As we begin to move forward into the new millennium, this is an excellent

time to engage in detailed analyses and 'stock-taking' of the landmark decisions, many of which were decided in the 1970s, and which have shaped modern Family Law. This book provides a series of in-depth studies of the key leading cases, and will be of interest to students and lecturers alike.

Criminal Law Penny Childs, 2011

*Cases that Changed Our Lives* Ian McDougall, James Wilson, 2014 Following the international success of Volume 1 in 2010, Volume 2 presents a brand new selection of cases that have changed our lives. This collection of essays examines key cases (both UK and international) that have changed or created the rules and procedures which govern our lives and which we abide by. It takes a retrospective look at the circumstances behind the results of these great cases, examining the facts and the lasting legacies, as well as revealing a human side to the events that is not always apparent from the law reports. The themes addressed by the book demonstrate the rule of law, showing that through something as abstract as judicial reasoning, we create a set of rules and procedures which govern our lives. In support of the rule of law and the causes championed by LexisNexis, a sum of GBP1 from every copy of the book sold will be donated to Stop the Traffik, a global movement of

activists around the world who passionately give their time and energy to build resilient communities and prevent human trafficking.

Family Justice Review Family Justice Review, Great Britain Ministry of Justice, 2011-04 The legal framework of family justice in England and Wales is strong. Its principles are right, in particular the starting point that the welfare of children must be paramount. Every year 500,000 parents and children are involved in the system. But the system is under great strain: cases take far too long (the average case took 53 weeks in 2010); too many private law disputes end up in court; the system lacks coherence; there is growing mistrust leading to layers of checking and scrutiny; little mutual learning or feedback; a worrying lack of IT and management information. The Review's recommendations aim: to bring greater coherence through organisational change and better management; making the system more able to cope with current and future pressures; to reduce duplication of scrutiny to the appropriate level; and to divert more issues away from the courts. The chapters of the review cover: the current system; the proposed Family Justice Service; public law; private law; financial implications and implementation; and there are eighteen annexes. The proposals are now out for consultation, with the final report due in autumn 2011.
