Non-Manipulative Selling Anthony J. Alessandra, Tony Alessandra, Phillip S. Wexler, Rick Barrera, 1992-04-09 Salespeople are among the most highly paid professionals in American society, and they are very important to the economy. Why, then, do so few people respect sales as a career? In *Non-Manipulative Selling* the authors attempt to address that question for a broad business audience. *Non-Manipulative Selling* offers the strategies and techniques for creating customers, not just sales.

Way of the Wolf Jordan Belfort, 2017-09-26 Persuasion: the ability to sell your product or service effectively; to close the deals, both in your business and your personal life; to stand out, be seen, and prove your case to the world; and in doing so create your greatest destiny possible. Belfort cracked the code on how to persuade anyone to do anything; now he is showing readers how to create their own circumstances to allow themselves to shape their world the way they want. -- adapted from jacket.

Memoir of a Trustbuster Eleanor M. Hadley, Patricia Hagan Kuwayama, 2002-10-31 Eleanor Hadley was a woman ahead of her time. While working on a Ph.D. in economics at Harvard, she was recruited by the U.S. government for her knowledge of Japanese zaibatsu (business combines) and subsequently became one of MacArthur's key advisors during the Occupation. After completing her doctorate, she prepared for a career in Washington until she learned she was being blacklisted. Seventeen years passed before Hadley's name was cleared; she returned to government service in 1967 and began a distinguished career as a senior policy analyst with the U.S. Tariff Commission and the General Accounting Office. Widely known (and feared) by Japanese businessmen and government leaders as the trust-busting beauty, Hadley published *Antitrust in Japan*, a seminal work on the impact of postwar deconcentration measures, in 1970. She received the Order of the Sacred Treasure from the Japanese government in 1986. Hadley's personal story provides a colorful backdrop to her substantive discussions of early postwar policies, which were created to provide Japan with a more efficient and competitive economy. As someone closely involved in formulating U.S. economic policy toward Japan for nearly half a century, Eleanor Hadley brings a unique perspective--as well as a down-to-earth sense of humor--to the continuing challenge of communicating across the Pacific.
